Old Business: Question regarding Dart Connect and using a tablet during matches. What if one Captain wants to use Dart Connect and the other Captain does not want to use the tablet. The Two Captains must agree. If the Captain does not want to use the table he/she can play under protest and note it on the score sheet. If the bar is providing the tablet as a score board and there is a dispute; the disputing captain may play under protest. Out good sportsmanship, the home team can provider a traditional chalk board or dry eraser for those teams that do not feel comfortable using the electronic devices.

Can a bar that is not open for business sign up a team for seasonal play? No the bar must be operational at the time of signups to be able to be a sponsor.

Artie: Twilight lounge add 2 more boards to play on that will need to be measured.

New Business:

We do need to set a boundary of how far away a team can be to be able to sign up in the Savannah Area Darting Association. We opened the floor for discussion for now but in June's meeting we will form an ad hock committee to look into and survey the league to help determine the SADA League boundaries. Next playoffs we can survey the general membership to allow for some input from the League
How far is too far to travel on Dart nights?
