

Anatomy of a Score Sheet

The following notes on how to fill out a match sheet are an attempt to cut down on a number of common errors that show up every week. New team captains as well as captains that have been doing this for several seasons should go over this before the start of the season.

REMEMBER: *The player statistics at the end of the season are only as good as the data you input for 14 weeks. Do your team members a favor and check and double check before you turn your sheet in.*

FRONT OF SHEET

- A. Put the week number at the top of the sheet. Enter the team name and team number at the top of the correct side (home team or away team). It is not necessary to put your schedule letter (A, B, C, D, etc.) on the sheet. This letter is for your benefit in reading the schedule. It does not help the Statistician in any way.
- B. **Player's Name:** When you list a player, please use last initials if you have more than one player with the same first name (John S., John W., etc.) Remember to use last initial even if only one of the players is present on a match night.
 - a. If you do not have a full team present for a match please indicate the 'bye' by writing 'bye' or just putting a line in place of the player's name. If you have written a player's name in and he/she does not show up for his/her match put a line through his/her name and write 'bye' beside it. If you do not show the game was a bye the player will be charged with a loss on a game he/she didn't even play in.
 - b. Please don't refer to players by nickname or by just their last name when you fill out the match sheet. The Statistician doesn't know that "Slim" is really Sam S. or that "Sweet Thing" is really Mary J.
 - c. Write a player's name the same way every time you put him or her on the sheet. Do not switch from David to Dave or Tom to Tommy etc., this can be very confusing to someone who is trying to read the sheets and does not know your team members.
- C. **Scoring:** Show the score for each game by a zero or a number (1, 2 or 3 depending on what game you are playing). Make sure that the total match points equals the sum of the three sets (301, Cricket and 601) that you have played. Also make sure that your score and your opponent's score equals 18 points unless there is a Bye vs Bye. Bye vs Bye will be 0 points for both teams.
- D. **Attaboys/Attagirls:** Enter the attaboys/attagirls in number form for the 01 games; 130 is easier to read than 3T0. In Cricket and 601 make sure you give the attaboy/attagirl to the correct player.

BACK OF SHEET

Yes folks, the back of the sheet does need to be filled out and IT IS the team captain's responsibility to do it. If the back is left blank it is not a completed sheet and your statistics will not be recorded until a completed sheet is turned in. Only Attaboys/Attagirls will be counted if the back of the sheet is not filled out.

- A. **Player's Stats:** Enter your team name and number at the top and bottom of the sheet. Enter your player's names (remember to use last initials if two players have the same first name and do not use a variation of their name). Enter the names in the same order as they were signed up on your Team Roster Sheet. If you drop a player leave his name on the sheet and add any new player at the bottom of the list.
 - a. These stats are for the current week only, not accumulated.
 - b. If a player wins a game, give him/her a one (1). If he/she loses, give him/her a zero (0). If he/she does not play, put a dash in that spot. It is important to show all this information (wins, losses and no play) so the Statistician doesn't have to keep referring to the front of the sheet.
- B. **TON AB/AG:** In this column enter the number of Tons, attaboys/attagirls hit that night, not the actual score that they hit (enter 2; not 120, 140). If a player hits a 180 in 301 or 601, three triples

(a 9count) in cricket or six bulls in cricket make sure you give them credit for two attaboys/attagirls and make a note about it in the comments section. Special awards are given for these feats and the Statistician needs to know they were hit.

- C. **DI/DO:** In this column show who doubled in (and out if you won the 601 game). It is not necessary to indicate the number that they hit. You might want to keep a record of this but the Statistician doesn't need it.
- D. **180:** In this column enter the number of 180's hit. (Remember that each one hit counts as 2 Attaboys/Attgirls)
- E. **9 Count:** In this column enter the number of 9 counts hit. (Remember that each one hit counts as 2 Attaboys/Attgirls)
- F. **Comments:** If a player does something good let us know about it (Attaboy/Attagirls, ins/outs, 180 hit, it was a bad night, we were attacked by space invaders, etc.) All comments are welcome. Mail in your match sheet and don't forget to call in your scores if you are the home team. All match sheets **must be** mailed or email mailed promptly. Envelope must be **Post Marked**, email must be **Date Stamp** no later than Friday following the match, or penalty points will be applied. See your "Policies, Procedures and Match Rules, "Article VII, paragraph J." "Check, Check and Double Check"

Captains!!! The match is over. You've had a few beers. The adrenaline flow has slowed down. You are ready to go home. YOU can't go yet. Now comes one of the most important parts of the match. **THE SIGNING OF THE SHEETS BOTH FRONT AND BACK.** You have two sheets and your opponent has two sheets. Make sure all four sheets are filled in identically before you sign. If you just check one of your opponents sheets and sign both you may be cheating your players. If you opponent turns in a sheet you didn't check and leaves off some tons you players have hit, **THEY WILL NOT BE COUNTED FOR YOU PLAYERS.**

It seems that at the end of every season one or two players don't get a trophy they deserve because of missing Attaboy/Attagirls. It only take s a minute to check all four sheets so make sure this doesn't happen to your players at the end of the season. Have a good season and remember, Darts is a sport that begins and ends with a handshake.

WEEK # 2
